Needs v. Wants

Step 1: Write down your needs, wants, and their costs in the applicable sections below.

Needs	Cost	<u>Alternatives</u>
Wants	Cost	Alternatives
Wants	Cost	<u>Alternatives</u>
<u>Wants</u>	Cost	Alternatives
Wants	Cost	Alternatives

Step 2: Review your list and think about what's really important and has lasting value.

- · Are some needs really wants?
- Are there alternative options to a particular want or need to reduce the cost (used, generic, etc.)? If so, write down a more reasonable alternative.
